Queens, New York, May 16, 2019 – On Thursday, May 16th, 2019, Empire Clean Cities will be holding its 11th Annual Stakeholder Meeting at the Queens Theatre at 14 United Nations Ave S, Flushing Meadow Corona Park, NY 11368. This year's Stakeholder meeting will focus on the advances and upcoming opportunities in the alternative fuels and technology industry. The Meeting will commence at 8AM and will end at 11:30AM. The event is free to attend and a light breakfast will be served.

The Stakeholder Meeting will showcase funding opportunities available to fleets and organizations (including the New York State Volkswagen Settlement Funding), feature advances in Electric Vehicle (EV) charging infrastructure, the latest pilot projects for electrifying transit buses, and discuss fleet successes with biodiesel and bio-based products. The event will also **honor Councilman Costa Constantinides** for his continued commitment and legislative efforts for a more sustainable city. We look forward to his continued support and actions that help ensure cleaner air for the citizens of New York City and the Lower Hudson Valley.

Following the meeting; participants are encouraged to attend NYC Parks & Recreation 31st Annual Vehicle and Equipment Show directly outside Empire Clean Cities' stakeholder meeting at the Unisphere in Flushing Meadows Park, Queens, NY. This annual fleet show showcases various medium to heavy-duty vehicles, as well as many alternative fuels and technologies available to fleets.

About Empire Clean Cities: Empire Clean Cities is a 501(c)(3) not-for-profit environmental organization with a mission to ensure clean air for future generations. As the designated local US Department of Energy supported Clean Cities coalition, we are part of a national network of nearly 100 coalitions dedicated to advancing the nation's economic, environmental, and energy security by reducing petroleum consumption in the transportation sector. We are committed to providing citizens and stakeholders access to reliable information about alternative fuels and advanced vehicle technologies.
